

EVO Dual Multi/Shoulder Press

+ Key Features

Robust and Durable, Value-Optimized Choice

Constructed from Q235A high-frequency cold-rolled steel with 40 × 140 mm square and 50 × 100 mm oval tubing for superior durability. Electrostatic powder-coated finish withstands 800+ hours of salt spray and impact testing.

Adjustable Movement Arm and Seat Design, Complete Pressing Freedom

4-position movement arm and seat adjustments enable quick transitions between bench, incline, and shoulder press exercises. Optimized training angles ensure proper alignment and effective movement.

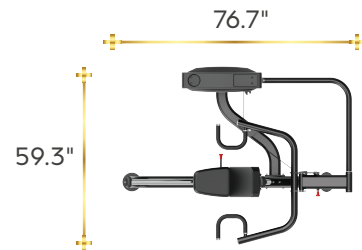

Multi-Angle Handles, Dual Symphony of Protection and Efficiency

Optimal handle angles match natural shoulder movement patterns to reduce joint stress and improve muscle engagement during pressing exercises.

Precision Weight Stack Engineering, Professional Training Assurance

High-density cast iron weight stack with a durable, corrosion-resistant coating and precision-calibrated weight distribution. Maximum weight: 125 kg.

Product Overview

The VO3 EVO Multi Press supports chest, shoulder, and tricep training with multiple press angles. Built with commercial-grade components, it delivers smooth performance, ergonomic support, and lasting durability.

Specifications

+ Dimensions (L × W × H):
