

EVO
Dual Seated Leg Press/Calf Raise

+ Key Features

Robust and Durable, Value-Optimized Choice
Constructed from Q235A cold-rolled steel with 40×140mm square and 50×100mm oval tubing for superior strength. The electrostatic powder-coated finish withstands 800+ hours of salt spray and impact testing for long-term durability.

Oversized Footplate, Stability Guaranteed
The large footplate features an anti-slip rubber surface for secure grip and efficient force transfer. Its spacious design supports multiple foot positions to effectively target different leg muscle groups.

Stable Seating for Precise Training
An 8-position adjustable backrest accommodates users of various sizes, while side-mounted handles enhance stability. High-density cushions provide lasting comfort and support during training.

Precision Weight Stack Engineering, Professional Training Assurance
The 125kg high-density cast iron weight stack features a textured black powder-coated finish for wear and corrosion resistance. Precision-calibrated weight increments ensure smooth and accurate training progression.

Product Overview

VO3 EVO Seated Leg Press/Calf Raise provides commercial-grade lower-body training for quads, glutes, hamstrings, and calves. Features smooth resistance, adjustable positions, and a compact design ideal for gyms and studios.
