

ONYX
Supported Row

+ Key Features

High-Precision Linear Guide System
Dual-axis linear rails provide smooth, stable motion control, minimizing wobble or jamming and enhancing muscle isolation during back exercises.

Pressure-Relieving Support Pad
Oversized pad design helps redistribute the weight, significantly reducing lower back pressure and improving safety during heavy-load training.

Multi-Grip Handle Options
Enables multiple grip angles and widths to activate the lats, rhomboids, and traps from various directions, supporting complete back development.

5-Position Adjustable Footplate
Ergonomically designed with a wide, anti-slip surface and five adjustment settings to match different levels of ankle mobility, ensuring proper alignment and power delivery.

Product Overview

The ONYX Seated Row delivers smooth, ergonomic back training with multiple grip options and adjustable seating. Designed to effectively target the lats, rhomboids, and traps while providing stable, comfortable support.

Specifications

- + Dimensions (L x W x H):
