

VICTORY V1 Pectoral Fly/Rear Deltoid

+ Key Features

Biomechanical Masterpiece, Dual-Function Training Redefined

The adjustable arm system supports both pectoral fly and reverse fly exercises, with five position settings for training variety. A high-strength steel arm design provides durability and stability.

Dual-Handle Design, Breaking Muscle Contraction Limits

The dual-handle design provides a comfortable grip and supports natural arm positioning for effective pectoral and rear deltoid training.

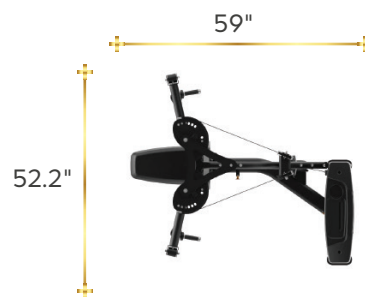

Pneumatic Micro-Adjustment Technology, Precise Training Control

A 6-position backrest, pneumatic seat adjustment, and extended seat design allow quick positioning for different training setups. All adjustments can be made with one hand for added convenience.

Precision Weight Stack Engineering, Professional Training Assurance

High-density cast iron weight stacks with 2.5 kg micro-adjustment plates support progressive training. A protective coating helps enhance durability and wear resistance.

Product Overview

The Victory V1 Pectoral Fly / Rear Deltoid combines chest and rear shoulder exercises in one space-efficient machine. Adjustable arms, dual handles, a 6-position backrest, and pneumatic seat adjustment provide quick setup for a wide range of users.
