

VICTORY V5 – 5 Station Multi-Gym

+ Key Features

Low Row Module

Designed to build back thickness with balanced muscle activation. Features a smooth pulley system, adjustable settings, an anti-slip foot platform for stability, and a long-track seat that supports full-range movements for maximum engagement.

Lat Pulldown Module

Optimized for back width development, this station features a high-mounted pulley for greater range of motion and effective muscle activation. Adjustable thigh pads and a precision-positioned seat provide stability, comfort, and proper training alignment.

Triceps Pushdown Module

Compact and purpose-built for triceps and core training. The integrated back pad improves stability and posture, helping isolate muscles for more effective upper-body and core workouts.

Large Adjustable Dual Pulley Module

Equipped with a 32-position pulley system, it supports a wide range of upper, lower, and core exercises. The multi-grip pull-up bar and side stabilizing handles enhance comfort, stability, and posture during functional training movements.

Product Overview

The VO3 Victory Series Commercial V5 5-Station Multi-Gym is a premium selectorized strength system built for high-traffic commercial facilities. Supporting multiple users at once, it combines smooth resistance, ergonomic design, and durable construction for reliable performance in gyms, training centres, and institutional environments.
